Differently abled Students Cell

The national policy recognizes the fact that a majority of persons with disabilities can lead a better quality life, if they have equal opportunities and effective access to rehabilitation measures. According to 2011 census, the differently abled persons constitute nearly 2.21 percent of the total population.

For the development of differently abled persons our college has constituted a special cell. The cell plays a vital role for the development of physically disabled persons through education and various activities. The cell is working since 2005 with the aim to facilitate equal opportunities to ensure protection of their rights and create a congenial environment.

Objectives:

- To provide counseling to prospective and present students on educational programmes and other facilities.
- To provide services for promoting the education and rehabilitation of the disabled persons.
- To co-operate with national, regional or local agencies in activities to promote the development of services.

Composition of Cell:

Facilities for differently able students

1. Physical Facilities:

The college provides special facilities for the differently abled students to provide them opportunities to acquire quality education and bring them into the main stream. The college has social responsibility and perception that differently abled students should be respected and treated as a normal human being.
