4.3.1 The institute frequently updates it's IT facility including wi-fi

The college has consistently upgraded its ICT facilities to enhance teaching, learning, and administrative efficiency. During the assessment period, faculty members were trained in effectively using LCD projectors, smartboards, and other ICT tools to ensure optimal utilization of these resources. A significant number of classrooms were equipped with ICT-enabled facilities, including the installation of two touch screens in ICT classrooms, enabling seamless access to e-learning resources. Based on suggestions from the IQAC, faculty, and students, the college expanded internet connectivity provisions to key areas, including computer laboratories, the language lab, statistics lab, browsing center, library, office, principal's room, science laboratories, and the IQAC.

To facilitate easy access to online resources, the college partnered with Global Network to provide high-speed internet connectivity of 100 Mbps across three units, including Wi-Fi. The high bandwidth ensures uninterrupted access to e-learning platforms, benefitting both students and staff. The IT infrastructure is secured with Quick Heal software, ensuring a safe and reliable network.

All departments are equipped with modern ICT tools, including computers, printers, scanners, and Wi-Fi connectivity. Open Wi-Fi provisions are available to the campus community, supporting collaborative learning and research.
