Report on Supermarket from MGC College Student

Unnamed Road, Muddabihal, Karnataka 586212, India

Muddabihal

Karnataka

India

Introduction: Last weeks me and my classmates from our College has visited a nearby supermarket named nagur super market. we had our class teacher along with us to help us guide in this visit and teach us new things about supermarket and how they deal with the customers and what all techniques and methods they use in maintaining the products and how they systematically align the vegetables, fruits and groceries etc. And how many departments they divide. And so on.

Come let us observe and start learning about this visit. Me and my friends were made into a group of four to five members and we were enter the Supermarket and saw that all the products were aligned systematically in rows and columns and there were different departments separate for fruits and vegetables for dairy products for groceries for household and for kids zone and womens zone & Mens zone of clothing, and kitchen appliances, the vegetables and fruits selection also had cold storage facilities which enhances the life expectancy of fruits and vegetables,

Location: We came to know that local Supermarkets are set in a place that is convenient for everyone to visit especially for middle class and upper class customers who frequently shop from local Bazaars.

Maintenance: To startup and Supermarket it requires land, building and in few cases rent is also given to the owner. And they need few permissions to start a Supermarket.

Characteristic and Advantages:

We can buy many brands of products in one roof. there is a vast collection of brands in all products which gives us an option to choose between them.

Supermarket also have a kind of facility with the Supplier or the manufacturer that if the product is expired they give exchange offer with the better product.

And the people in Supermarkets responds to the customer very kindly and accepts their feedbacks

And the Supermarket are under CCTV Camera Surveillance for the safety and also to keep track of shopping in customers who visit frequently and also to be evidence in case of any theft

One advantage of Supermarket is that they accept Credit Cards and online payment is also done in Local Street Vendors we cannot use Credit or debit Cards

Conclusion :- Visiting a Supermarket was very fun. a good opportunities to learn what all Super markets apply and what all it required to start Supermarket, all the Supermarket have So many advantages and perks it also affects traditional format retailers for example :- Kirana shops, Street vegetables and fruit vendors. Adapting of this effective method of ease in purchasing or shopping, is better and adaptable.

Introduction to Toor dal Mill Project

Toor dal Milling is a profitable business in India. you can plan the business set up based on the production output. Dal Milling is a the third largest food processing industry in India next to rice & wheat.

Technical aspects of toor dal Mill project

- 1) The Production capacity of toor dal Mill 250 kg/hr
- 2) The number of shifts are two
- 3) The daily production capacity for the Mill should be 3.53 tons.
- 4) The Number of working days per annum of the mill should be 300 days
- 5) The annual production of the Mill should be 6%
- 6) loss during de-husking should be 6% and it should not exceed this percentage.
- 7) The net production per annum should be 500 tons.

Fixed Capital Requirements

- 1) The cost involved in for site development INR 4000
- 2) cost Involved in the construction of work shed
RS ₹ 5,00,000

- 3) Cost involved in setting up tool dal mill plant & machinery RS ₹ 2,00,000
- 4) The miscellaneous charges & fixed assets RS 50,000
- 5) The pre-operative expenses involved in setting up the mill project RS ₹ 35,000

The total fixed capital investments include
RS 8,25,000

Working Capital Requirements

- 1) Raw materials and consumables for 1 month RS 9,00,000
- 2) Cost involved for finished goods for 1 week RS 3,00,000
- 3) Expenses for workers for 1 month RS 50,000
- 4) Receivables for 1 week RS 3,00,000

The total working capital costs for tool dal mill
RS ₹ 15,50,000

Working capital to be financed as

Marginal money RS 4,00,000

Bank finance provided RS 12,00,000

Term loan RS 75% in RS 6,00,000

Promoter's equity RS 25% in RS 2,00,000

Total cost involved RS 8,00,000

Cost of the Product & Profit Percentage

Capacity Utilization is 70% - Set A

Output in Million tons is 500 MT/annum - Set

Annual revenue Rs 12,50,000

The cost of toor dal is Rs 25,000 per ton and the annual sales for 500 MT is Rs 12,50,000

Hence the profit can be expected more than 40%.

Process of Toor dal Milling

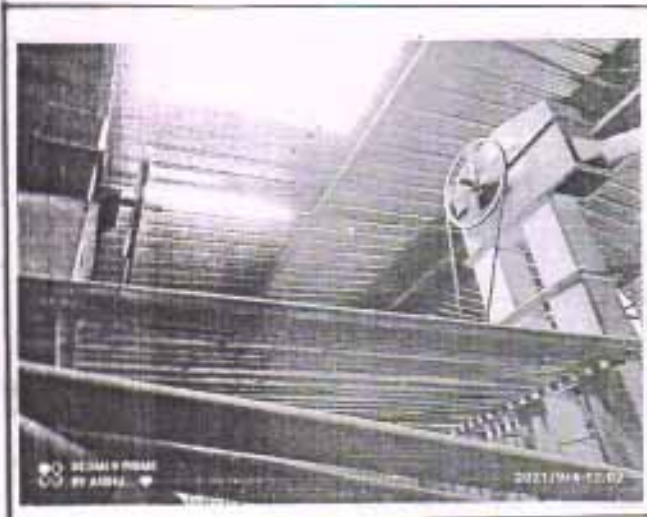

- 1] Raw Toor Grains
- 2] Grain cleaning process
- 3] pitting into Roller Dehusker
- 4] oil smearing process
- 5] Water treatment process
- 6] polishing process
- 7] Drying & cooling process
- 8] Dehusking process
- 9] splitting process
- 10] Final split Toor Dal

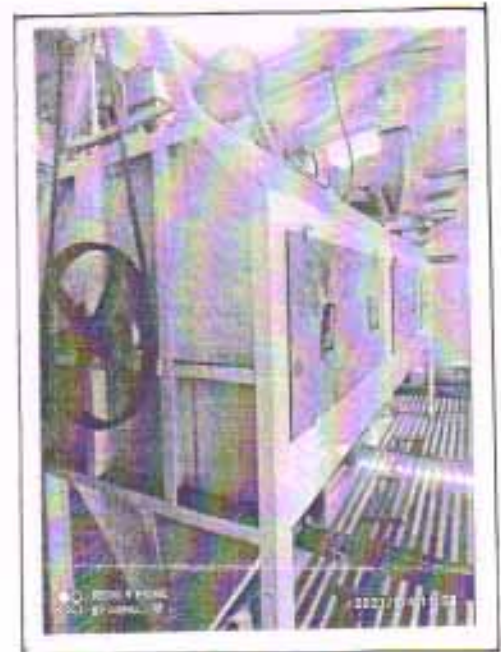

Raw Toor Grains

Grain cleaning
Process

Pitting into Roller
Dehusker

oil smearing process

splited Grains

Spirting Process

Final spirt Toot dal

Taking Guidance by Factory owner Respected
C.P. Saijan Sir Thanks to C.P. Saijan Sir
for giving us a such informative knowledge about
Thanks to Anil Sir and S.R. Hattar Sir for
taking us to the factory and explaining us
from start to the end of the process. We all
are very very Thank full to you both Sir.
