**7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words)**

The institution has a beautiful green campus and its major concern is to keep the campus neat, clean and eco-friendly. The college has put several dustbins in the college premises. Garden waste, kitchen wastes from ladies hostel and college canteen and other waste are collected from various places of the campus and put it into the vermicompost. Later the compost is used for plants in the campus. The college has made a written communication with Municipal Corporation Muddebihal for collection the Solid waste.

#### **Liquid Waste:**

The Liquid waste from toilets is collected in under ground septic tanks when they are filled up completely. We call for municipal corporation and it collects liquid waste from the septic tanks.

In chemistry laboratory many chemicals used for practical's. The residual chemicals are collected and diluted by adding water and disposed.

#### **E-Waste Management:**

The College has E-waste Management. The college has banned use of CD's pen-drive, advised to use E-mail. The damaged computers, printers, Xerox machine etc, are kept in E-Waste dead stock room. Later they are exchanged or sold out to the agencies.

#### **Waste recycling System:**

Liquid waste is collected from the various places from the college campus. It is dumped into the vermicompost pit.
